Test Case Register - FDS

DDP-183 / Issue #84 | CI-backed selected cases mapped to FD-01 through FD-19. Does not claim 100% endpoint coverage or a full end-to-end acceptance sign-off.

DOCUMENT STATUS: SOURCE-TRACED DRAFT; CROSS-SERVICE TESTS PENDING

---

1 Report metadata and execution interpretation

Field	Value
Test evidence snapshot	2026-10-24 UTC; develop at 503465b7eb2c29b56cc2ec0d329d91d6b40853d4
Backend CI	https://github.com/forever-hotel/front-desk/actions/runs/40057114169
Frontend CI	https://github.com/forever-hotel/front-desk/actions/runs/40057114175
Recorded cases	43 selected, not exhaustive across all 858 CI tests
Pass evidence semantics	Exact named tests are present in test files. Their Jest suites passed in CI. Per-case actual HTTP/SQL payloads were not archived separately.
Not Tested semantics	Full live third-party/subsystem flow is not demonstrated by mocked gateway unit tests.

2 Traceability by original FDS requirements

SRS ID	Selected CI-backed cases	Integration gaps	Test case IDs
FD-01	1	1	TC-FDS-001, TC-FDS-002
FD-02	2	0	TC-FDS-003, TC-FDS-004
FD-03	2	0	TC-FDS-005, TC-FDS-006
FD-04	2	0	TC-FDS-007, TC-FDS-008
FD-05	2	0	TC-FDS-009, TC-FDS-010
FD-06	2	0	TC-FDS-011, TC-FDS-012
FD-07	1	1	TC-FDS-013, TC-FDS-014
FD-08	1	1	TC-FDS-015, TC-FDS-016
FD-09	1	1	TC-FDS-017, TC-FDS-018
FD-10	1	1	TC-FDS-019, TC-FDS-020
FD-11	2	0	TC-FDS-021, TC-FDS-022
FD-12	2	0	TC-FDS-023, TC-FDS-024
FD-13	2	0	TC-FDS-025, TC-FDS-026
FD-14	1	1	TC-FDS-027, TC-FDS-028
FD-15	2	0	TC-FDS-029, TC-FDS-030
FD-16	3	0	TC-FDS-031, TC-FDS-032, TC-FDS-033
FD-17	1	1	TC-FDS-034, TC-FDS-035
FD-18	1	1	TC-FDS-036, TC-FDS-037
FD-19	2	1	TC-FDS-038, TC-FDS-039, TC-FDS-040

3 Individual test cases

All required course fields are included: ID, Name, Related Requirement, Related Test File, Type, Priority, Preconditions, Input, Expected Output, Actual Output, Status. Evidence links are in the final row of each record.

TC-FDS-001 | resolves a valid receptionist JWT

Field	Recorded detail
Related requirement	FD-01
Test file	backend/src/security/auth/jwt-principal.resolver.spec.ts
Type / Priority	Unit / P1
Preconditions	JWT issuer/secret configured in isolated test
Input / Steps	Valid signed receptionist bearer JWT
Expected Output	Returns trusted receptionist principal; checks signature/issuer/expiry
Actual Output	Test assertions passed in named CI group; individual response payload not separately archived.
Status	PASS (CI suite)
Evidence	Backend CI: https://github.com/forever-hotel/front-desk/actions/runs/40057114169; test source: https://github.com/forever-hotel/front-desk/blob/503465b7eb2c29b56cc2ec0d329d91d6b40853d4/backend/src/security/auth/jwt-principal.resolver.spec.ts
Limitation	Does not prove manager-provisioned credential/login flow

TC-FDS-002 | Manager-provisioned receptionist login end-to-end

Field	Recorded detail
Related requirement	FD-01
Test file	N/A - identity provisioning belongs to central auth/MAD integration
Type / Priority	Cross-service E2E / P1
Preconditions	Live central authentication service
Input / Steps	Manager provisions credentials; receptionist logs in
Expected Output	Credentials provisioned; actual user can authenticate FDS
Actual Output	No verified execution evidence.
Status	NOT TESTED (integration)
Evidence	No live execution evidence
Limitation	FDS JWT authorization tests are not end-to-end account provisioning evidence

TC-FDS-003 | returns confirmed arrivals for the requested date

Field	Recorded detail
Related requirement	FD-02
Test file	backend/test/database/postgres-booking.repository.integration-spec.ts
Type / Priority	PostgreSQL integration / P1
Preconditions	Seeded bookings
Input / Steps	Query arrivals for date
Expected Output	Only confirmed arrivals for date returned
Actual Output	Test assertions passed in named CI group; individual response payload not separately archived.
Status	PASS (CI suite)
Evidence	Backend CI: https://github.com/forever-hotel/front-desk/actions/runs/40057114169; test source: https://github.com/forever-hotel/front-desk/blob/503465b7eb2c29b56cc2ec0d329d91d6b40853d4/backend/test/database/postgres-booking.repository.integration-spec.ts

TC-FDS-004 | returns checked-in departures for the requested date

Field	Recorded detail
Related requirement	FD-02
Test file	backend/test/database/postgres-booking.repository.integration-spec.ts
Type / Priority	PostgreSQL integration / P1
Preconditions	Seeded bookings
Input / Steps	Query departures for date
Expected Output	Only checked-in departures for date returned
Actual Output	Test assertions passed in named CI group; individual response payload not separately archived.
Status	PASS (CI suite)
Evidence	Backend CI: https://github.com/forever-hotel/front-desk/actions/runs/40057114169; test source: https://github.com/forever-hotel/front-desk/blob/503465b7eb2c29b56cc2ec0d329d91d6b40853d4/backend/test/database/postgres-booking.repository.integration-spec.ts

TC-FDS-005 | searches persisted bookings by guest name

Field	Recorded detail
Related requirement	FD-03
Test file	backend/test/database/postgres-booking.repository.integration-spec.ts
Type / Priority	PostgreSQL integration / P1
Preconditions	Seeded guest/booking
Input / Steps	Search by guest name
Expected Output	Returns matching persisted booking
Actual Output	Test assertions passed in named CI group; individual response payload not separately archived.
Status	PASS (CI suite)
Evidence	Backend CI: https://github.com/forever-hotel/front-desk/actions/runs/40057114169; test source: https://github.com/forever-hotel/front-desk/blob/503465b7eb2c29b56cc2ec0d329d91d6b40853d4/backend/test/database/postgres-booking.repository.integration-spec.ts

TC-FDS-006 | searches persisted bookings by NIC/passport

Field	Recorded detail
Related requirement	FD-03
Test file	backend/test/database/postgres-booking.repository.integration-spec.ts
Type / Priority	PostgreSQL integration / P1
Preconditions	Seeded guest/booking
Input / Steps	Search by identity field
Expected Output	Returns matching persisted booking
Actual Output	Test assertions passed in named CI group; individual response payload not separately archived.
Status	PASS (CI suite)
Evidence	Backend CI: https://github.com/forever-hotel/front-desk/actions/runs/40057114169; test source: https://github.com/forever-hotel/front-desk/blob/503465b7eb2c29b56cc2ec0d329d91d6b40853d4/backend/test/database/postgres-booking.repository.integration-spec.ts

TC-FDS-007 | creates a cash walk-in booking and completed payment

Field	Recorded detail
Related requirement	FD-04
Test file	backend/test/database/postgres-walk-in-booking.repository.integration-spec.ts
Type / Priority	PostgreSQL integration / P1
Preconditions	Disposable database; valid room type
Input / Steps	Create cash walk-in
Expected Output	Booking and completed payment persisted in transaction
Actual Output	Test assertions passed in named CI group; individual response payload not separately archived.
Status	PASS (CI suite)
Evidence	Backend CI: https://github.com/forever-hotel/front-desk/actions/runs/40057114169; test source: https://github.com/forever-hotel/front-desk/blob/503465b7eb2c29b56cc2ec0d329d91d6b40853d4/backend/test/database/postgres-walk-in-booking.repository.integration-spec.ts

TC-FDS-008 | rolls back the booking when payment persistence fails

Field	Recorded detail
Related requirement	FD-04
Test file	backend/test/database/postgres-walk-in-booking.repository.integration-spec.ts
Type / Priority	PostgreSQL integration / P1
Preconditions	Failure injected in payment stage
Input / Steps	Create walk-in while payment persistence fails
Expected Output	Booking is rolled back
Actual Output	Test assertions passed in named CI group; individual response payload not separately archived.
Status	PASS (CI suite)
Evidence	Backend CI: https://github.com/forever-hotel/front-desk/actions/runs/40057114169; test source: https://github.com/forever-hotel/front-desk/blob/503465b7eb2c29b56cc2ec0d329d91d6b40853d4/backend/test/database/postgres-walk-in-booking.repository.integration-spec.ts

TC-FDS-009 | checks in a confirmed booking with physical-document verification

Field	Recorded detail
Related requirement	FD-05
Test file	backend/test/database/postgres-check-in.repository.integration-spec.ts
Type / Priority	PostgreSQL integration / P1
Preconditions	Confirmed booking, receptionist, vacant room
Input / Steps	Physical-document verification on check-in
Expected Output	Verification and check-in saved atomically
Actual Output	Test assertions passed in named CI group; individual response payload not separately archived.
Status	PASS (CI suite)
Evidence	Backend CI: https://github.com/forever-hotel/front-desk/actions/runs/40057114169; test source: https://github.com/forever-hotel/front-desk/blob/503465b7eb2c29b56cc2ec0d329d91d6b40853d4/backend/test/database/postgres-check-in.repository.integration-spec.ts

TC-FDS-010 | checks in a pre-assigned booking with scanned-copy metadata

Field	Recorded detail
Related requirement	FD-05
Test file	backend/test/database/postgres-check-in.repository.integration-spec.ts
Type / Priority	PostgreSQL integration / P1
Preconditions	Confirmed booking, scanned-copy metadata
Input / Steps	Check in with scanned document metadata
Expected Output	Scanned-copy metadata persisted and booking checked in
Actual Output	Test assertions passed in named CI group; individual response payload not separately archived.
Status	PASS (CI suite)
Evidence	Backend CI: https://github.com/forever-hotel/front-desk/actions/runs/40057114169; test source: https://github.com/forever-hotel/front-desk/blob/503465b7eb2c29b56cc2ec0d329d91d6b40853d4/backend/test/database/postgres-check-in.repository.integration-spec.ts

TC-FDS-011 | rejects an occupied room

Field	Recorded detail
Related requirement	FD-06
Test file	backend/test/database/postgres-check-in.repository.integration-spec.ts
Type / Priority	PostgreSQL integration / P1
Preconditions	Booked stay; occupied target room
Input / Steps	Attempt room assignment on check-in
Expected Output	Room conflict is rejected
Actual Output	Test assertions passed in named CI group; individual response payload not separately archived.
Status	PASS (CI suite)
Evidence	Backend CI: https://github.com/forever-hotel/front-desk/actions/runs/40057114169; test source: https://github.com/forever-hotel/front-desk/blob/503465b7eb2c29b56cc2ec0d329d91d6b40853d4/backend/test/database/postgres-check-in.repository.integration-spec.ts

TC-FDS-012 | checks in a confirmed booking with physical-document verification

Field	Recorded detail
Related requirement	FD-06
Test file	backend/test/database/postgres-check-in.repository.integration-spec.ts
Type / Priority	PostgreSQL integration / P1
Preconditions	Confirmed booking, vacant compatible room
Input / Steps	Check in and assign room
Expected Output	Booking and room status updated
Actual Output	Test assertions passed in named CI group; individual response payload not separately archived.
Status	PASS (CI suite)
Evidence	Backend CI: https://github.com/forever-hotel/front-desk/actions/runs/40057114169; test source: https://github.com/forever-hotel/front-desk/blob/503465b7eb2c29b56cc2ec0d329d91d6b40853d4/backend/test/database/postgres-check-in.repository.integration-spec.ts

TC-FDS-013 | should check in and activate FOSS access after the domain transaction succeeds

Field	Recorded detail
Related requirement	FD-07
Test file	backend/src/check-ins/check-in.service.spec.ts
Type / Priority	Unit / mocked gateway / P1
Preconditions	Mock FOSS gateway injected
Input / Steps	Successful check-in
Expected Output	Service calls FOSS activation after successful domain operation
Actual Output	Test assertions passed in named CI group; individual response payload not separately archived.
Status	PASS (CI suite)
Evidence	Backend CI: https://github.com/forever-hotel/front-desk/actions/runs/40057114169; test source: https://github.com/forever-hotel/front-desk/blob/503465b7eb2c29b56cc2ec0d329d91d6b40853d4/backend/src/check-ins/check-in.service.spec.ts
Limitation	Mock is not proof of real FOSS integration

TC-FDS-014 | FDS-to-live-FOSS activation

Field	Recorded detail
Related requirement	FD-07
Test file	N/A - real FOSS cross-service test not present in reviewed FDS CI
Type / Priority	Cross-service E2E / P1
Preconditions	Live FOSS contract & auth
Input / Steps	Complete FDS check-in and inspect actual FOSS session
Expected Output	FOSS session usable by checked-in guest
Actual Output	No verified execution evidence.
Status	NOT TESTED (integration)
Evidence	No live execution evidence
Limitation	Mock activation is not production activation

TC-FDS-015 | should accept a registration-card print job

Field	Recorded detail
Related requirement	FD-08
Test file	backend/src/check-ins/gateways/mock-check-in-print.gateway.spec.ts
Type / Priority	Unit / mock print / P1
Preconditions	Mock printer gateway
Input / Steps	Request registration-card print
Expected Output	Mock accepts print job
Actual Output	Test assertions passed in named CI group; individual response payload not separately archived.
Status	PASS (CI suite)
Evidence	Backend CI: https://github.com/forever-hotel/front-desk/actions/runs/40057114169; test source: https://github.com/forever-hotel/front-desk/blob/503465b7eb2c29b56cc2ec0d329d91d6b40853d4/backend/src/check-ins/gateways/mock-check-in-print.gateway.spec.ts
Limitation	No physical printer output demonstrated

TC-FDS-016 | Registration card / receipt physically printed

Field	Recorded detail
Related requirement	FD-08
Test file	N/A - real printer not integrated
Type / Priority	Acceptance / hardware / P1
Preconditions	Printer device and real adapter connected
Input / Steps	Request print and inspect paper output
Expected Output	Physical registration card / receipt printed
Actual Output	No verified execution evidence.
Status	NOT TESTED (hardware)
Evidence	No live execution evidence

TC-FDS-017 | atomically persists final payment, checked-out booking, cleaning room and checkout audit

Field	Recorded detail
Related requirement	FD-09
Test file	backend/test/database/postgres-checkout.repository.integration-spec.ts
Type / Priority	PostgreSQL integration / P1
Preconditions	Checked-in booking; ready checkout
Input / Steps	Persist checkout with settlement
Expected Output	Payment, booking, room, audit remain consistent
Actual Output	Test assertions passed in named CI group; individual response payload not separately archived.
Status	PASS (CI suite)
Evidence	Backend CI: https://github.com/forever-hotel/front-desk/actions/runs/40057114169; test source: https://github.com/forever-hotel/front-desk/blob/503465b7eb2c29b56cc2ec0d329d91d6b40853d4/backend/test/database/postgres-checkout.repository.integration-spec.ts
Limitation	Payment gateway settlement is mocked separately

TC-FDS-018 | Real card/cash settlement at checkout

Field	Recorded detail
Related requirement	FD-09
Test file	N/A - live payment adapter not evidenced
Type / Priority	Payment integration / P1
Preconditions	Certified real payment adapter
Input / Steps	Complete charge/refund/settlement
Expected Output	Verified payment provider settlement
Actual Output	No verified execution evidence.
Status	NOT TESTED (integration)
Evidence	No live execution evidence

TC-FDS-019 | atomically persists final payment, checked-out booking, cleaning room and checkout audit

Field	Recorded detail
Related requirement	FD-10
Test file	backend/test/database/postgres-checkout.repository.integration-spec.ts
Type / Priority	PostgreSQL integration / P1
Preconditions	Checked-in room, settled folio
Input / Steps	Checkout booking
Expected Output	Room marked for cleaning, booking checked out, audit persisted
Actual Output	Test assertions passed in named CI group; individual response payload not separately archived.
Status	PASS (CI suite)
Evidence	Backend CI: https://github.com/forever-hotel/front-desk/actions/runs/40057114169; test source: https://github.com/forever-hotel/front-desk/blob/503465b7eb2c29b56cc2ec0d329d91d6b40853d4/backend/test/database/postgres-checkout.repository.integration-spec.ts

TC-FDS-020 | Checkout-to-live-WKMS cleaning task and FOSS deactivation

Field	Recorded detail
Related requirement	FD-10
Test file	N/A - integrated checkout chain not verified
Type / Priority	Cross-service E2E / P1
Preconditions	Live RabbitMQ, WKMS, FOSS
Input / Steps	Complete checkout; inspect WKMS and FOSS
Expected Output	WKMS task created, FOSS access revoked
Actual Output	No verified execution evidence.
Status	NOT TESTED (integration)
Evidence	No live execution evidence

TC-FDS-021 | atomically reassigns a checked-in booking and audits the room change

Field	Recorded detail
Related requirement	FD-11
Test file	backend/test/database/postgres-room-change.repository.integration-spec.ts
Type / Priority	PostgreSQL integration / P1
Preconditions	Checked-in booking, compatible new room
Input / Steps	Change assigned room
Expected Output	Booking, old/new rooms and audit update atomically
Actual Output	Test assertions passed in named CI group; individual response payload not separately archived.
Status	PASS (CI suite)
Evidence	Backend CI: https://github.com/forever-hotel/front-desk/actions/runs/40057114169; test source: https://github.com/forever-hotel/front-desk/blob/503465b7eb2c29b56cc2ec0d329d91d6b40853d4/backend/test/database/postgres-room-change.repository.integration-spec.ts

TC-FDS-022 | rejects an UNDER_MAINTENANCE target room

Field	Recorded detail
Related requirement	FD-11
Test file	backend/test/database/postgres-room-change.repository.integration-spec.ts
Type / Priority	PostgreSQL integration / P1
Preconditions	Target room under maintenance
Input / Steps	Try to move guest into target
Expected Output	Unsafe room-change rejected
Actual Output	Test assertions passed in named CI group; individual response payload not separately archived.
Status	PASS (CI suite)
Evidence	Backend CI: https://github.com/forever-hotel/front-desk/actions/runs/40057114169; test source: https://github.com/forever-hotel/front-desk/blob/503465b7eb2c29b56cc2ec0d329d91d6b40853d4/backend/test/database/postgres-room-change.repository.integration-spec.ts

TC-FDS-023 | loads room-board data including all supported room states

Field	Recorded detail
Related requirement	FD-12
Test file	backend/test/database/postgres-room.repository.integration-spec.ts
Type / Priority	PostgreSQL integration / P1
Preconditions	Seeded room inventory
Input / Steps	GET room board snapshot
Expected Output	Room-state snapshot includes supported states
Actual Output	Test assertions passed in named CI group; individual response payload not separately archived.
Status	PASS (CI suite)
Evidence	Backend CI: https://github.com/forever-hotel/front-desk/actions/runs/40057114169; test source: https://github.com/forever-hotel/front-desk/blob/503465b7eb2c29b56cc2ec0d329d91d6b40853d4/backend/test/database/postgres-room.repository.integration-spec.ts

TC-FDS-024 | allows a receptionist and delivers room events

Field	Recorded detail
Related requirement	FD-12
Test file	backend/test/realtime.e2e-spec.ts
Type / Priority	Socket.IO E2E / P1
Preconditions	JWT receptionist; realtime gateway
Input / Steps	Connect Socket.IO; publish room event
Expected Output	Authenticated client receives room-status update
Actual Output	Test assertions passed in named CI group; individual response payload not separately archived.
Status	PASS (CI suite)
Evidence	Backend CI: https://github.com/forever-hotel/front-desk/actions/runs/40057114169; test source: https://github.com/forever-hotel/front-desk/blob/503465b7eb2c29b56cc2ec0d329d91d6b40853d4/backend/test/realtime.e2e-spec.ts

TC-FDS-025 | transitions a VACANT room to UNDER_MAINTENANCE and preserves lastClearedAt

Field	Recorded detail
Related requirement	FD-13
Test file	backend/test/database/postgres-room.repository.integration-spec.ts
Type / Priority	PostgreSQL integration / P1
Preconditions	VACANT room
Input / Steps	Block room for maintenance
Expected Output	Status updates to UNDER_MAINTENANCE with required audit semantics
Actual Output	Test assertions passed in named CI group; individual response payload not separately archived.
Status	PASS (CI suite)
Evidence	Backend CI: https://github.com/forever-hotel/front-desk/actions/runs/40057114169; test source: https://github.com/forever-hotel/front-desk/blob/503465b7eb2c29b56cc2ec0d329d91d6b40853d4/backend/test/database/postgres-room.repository.integration-spec.ts

TC-FDS-026 | transitions UNDER_MAINTENANCE to VACANT

Field	Recorded detail
Related requirement	FD-13
Test file	backend/test/database/postgres-room.repository.integration-spec.ts
Type / Priority	PostgreSQL integration / P1
Preconditions	Room under maintenance
Input / Steps	Clear maintenance
Expected Output	Status returns to VACANT
Actual Output	Test assertions passed in named CI group; individual response payload not separately archived.
Status	PASS (CI suite)
Evidence	Backend CI: https://github.com/forever-hotel/front-desk/actions/runs/40057114169; test source: https://github.com/forever-hotel/front-desk/blob/503465b7eb2c29b56cc2ec0d329d91d6b40853d4/backend/test/database/postgres-room.repository.integration-spec.ts

TC-FDS-027 | should create a WKMS task for a checked-in guest

Field	Recorded detail
Related requirement	FD-14
Test file	backend/src/service-requests/service-requests.service.spec.ts
Type / Priority	Unit / mocked WKMS / P1
Preconditions	Checked-in guest; mocked WKMS
Input / Steps	Request guest service task
Expected Output	WKMS gateway method invoked with task payload
Actual Output	Test assertions passed in named CI group; individual response payload not separately archived.
Status	PASS (CI suite)
Evidence	Backend CI: https://github.com/forever-hotel/front-desk/actions/runs/40057114169; test source: https://github.com/forever-hotel/front-desk/blob/503465b7eb2c29b56cc2ec0d329d91d6b40853d4/backend/src/service-requests/service-requests.service.spec.ts
Limitation	No end-to-end WKMS execution proved

TC-FDS-028 | FDS-to-live-WKMS service request delivered

Field	Recorded detail
Related requirement	FD-14
Test file	N/A - real WKMS flow not evidenced
Type / Priority	Cross-service E2E / P1
Preconditions	Both services deployed; API configured
Input / Steps	Create FDS service request and inspect worker queue
Expected Output	Worker task exists in WKMS
Actual Output	No verified execution evidence.
Status	NOT TESTED (integration)
Evidence	No live execution evidence

TC-FDS-029 | loads the persisted checked-in booking context for a running folio

Field	Recorded detail
Related requirement	FD-15
Test file	backend/test/database/postgres-folio.repository.integration-spec.ts
Type / Priority	PostgreSQL integration / P1
Preconditions	Active stay and persisted booking total
Input / Steps	Retrieve running folio
Expected Output	Room charge based on authoritative booking data
Actual Output	Test assertions passed in named CI group; individual response payload not separately archived.
Status	PASS (CI suite)
Evidence	Backend CI: https://github.com/forever-hotel/front-desk/actions/runs/40057114169; test source: https://github.com/forever-hotel/front-desk/blob/503465b7eb2c29b56cc2ec0d329d91d6b40853d4/backend/test/database/postgres-folio.repository.integration-spec.ts

TC-FDS-030 | should return an empty external-charge list until live integration is connected

Field	Recorded detail
Related requirement	FD-15
Test file	backend/src/billing/gateways/mock-external-folio-charge.gateway.spec.ts
Type / Priority	Unit / mock / P1
Preconditions	Mock external-charge gateway
Input / Steps	Get external F&B/service charges
Expected Output	Empty mock result, not fabricated charges
Actual Output	Test assertions passed in named CI group; individual response payload not separately archived.
Status	PASS (CI suite)
Evidence	Backend CI: https://github.com/forever-hotel/front-desk/actions/runs/40057114169; test source: https://github.com/forever-hotel/front-desk/blob/503465b7eb2c29b56cc2ec0d329d91d6b40853d4/backend/src/billing/gateways/mock-external-folio-charge.gateway.spec.ts
Limitation	Live kitchen/service charging not yet tested

TC-FDS-031 | rejects modification of an existing audit record

Field	Recorded detail
Related requirement	FD-16
Test file	backend/test/database/audit-append-only.integration-spec.ts
Type / Priority	PostgreSQL integration / P1
Preconditions	Existing audit record + DB trigger
Input / Steps	Attempt UPDATE audit_logs
Expected Output	Database rejects mutation
Actual Output	Test assertions passed in named CI group; individual response payload not separately archived.
Status	PASS (CI suite)
Evidence	Backend CI: https://github.com/forever-hotel/front-desk/actions/runs/40057114169; test source: https://github.com/forever-hotel/front-desk/blob/503465b7eb2c29b56cc2ec0d329d91d6b40853d4/backend/test/database/audit-append-only.integration-spec.ts

TC-FDS-032 | rejects deletion of an existing audit record

Field	Recorded detail
Related requirement	FD-16
Test file	backend/test/database/audit-append-only.integration-spec.ts
Type / Priority	PostgreSQL integration / P1
Preconditions	Existing audit record + DB trigger
Input / Steps	Attempt DELETE audit_logs
Expected Output	Database rejects deletion
Actual Output	Test assertions passed in named CI group; individual response payload not separately archived.
Status	PASS (CI suite)
Evidence	Backend CI: https://github.com/forever-hotel/front-desk/actions/runs/40057114169; test source: https://github.com/forever-hotel/front-desk/blob/503465b7eb2c29b56cc2ec0d329d91d6b40853d4/backend/test/database/audit-append-only.integration-spec.ts

TC-FDS-033 | allows a receptionist to read audit logs

Field	Recorded detail
Related requirement	FD-16
Test file	backend/test/audit-rbac.e2e-spec.ts
Type / Priority	HTTP E2E / P1
Preconditions	Receptionist bearer JWT
Input / Steps	GET /audit-logs
Expected Output	Authorized audit logs read
Actual Output	Test assertions passed in named CI group; individual response payload not separately archived.
Status	PASS (CI suite)
Evidence	Backend CI: https://github.com/forever-hotel/front-desk/actions/runs/40057114169; test source: https://github.com/forever-hotel/front-desk/blob/503465b7eb2c29b56cc2ec0d329d91d6b40853d4/backend/test/audit-rbac.e2e-spec.ts

TC-FDS-034 | should validate, push and ack a valid escalation

Field	Recorded detail
Related requirement	FD-17
Test file	backend/src/realtime/task-escalation.consumer.spec.ts
Type / Priority	Unit / mocked broker / P1
Preconditions	Valid WKMS escalation fixture
Input / Steps	Consume valid event
Expected Output	Validate event; publish realtime notification; ack
Actual Output	Test assertions passed in named CI group; individual response payload not separately archived.
Status	PASS (CI suite)
Evidence	Backend CI: https://github.com/forever-hotel/front-desk/actions/runs/40057114169; test source: https://github.com/forever-hotel/front-desk/blob/503465b7eb2c29b56cc2ec0d329d91d6b40853d4/backend/src/realtime/task-escalation.consumer.spec.ts
Limitation	Unclaimed-after-15-min trigger requires WKMS evidence

TC-FDS-035 | Real WKMS 15-minute escalation policy

Field	Recorded detail
Related requirement	FD-17
Test file	N/A - WKMS timer test is outside FDS scope
Type / Priority	Cross-service integration / P1
Preconditions	Live WKMS task creation/timer
Input / Steps	Leave task unclaimed for configured threshold
Expected Output	WKMS generates proper escalation
Actual Output	No verified execution evidence.
Status	NOT TESTED (integration)
Evidence	No live execution evidence

TC-FDS-036 | should audit a successful manual assignment and remove its escalation

Field	Recorded detail
Related requirement	FD-18
Test file	backend/src/service-requests/service-requests.service.spec.ts
Type / Priority	Unit / mocked WKMS / P1
Preconditions	Available worker returned by mock
Input / Steps	Assign escalated task
Expected Output	Assignment succeeds, audit written, escalation removed
Actual Output	Test assertions passed in named CI group; individual response payload not separately archived.
Status	PASS (CI suite)
Evidence	Backend CI: https://github.com/forever-hotel/front-desk/actions/runs/40057114169; test source: https://github.com/forever-hotel/front-desk/blob/503465b7eb2c29b56cc2ec0d329d91d6b40853d4/backend/src/service-requests/service-requests.service.spec.ts
Limitation	Test uses WKMS client mock

TC-FDS-037 | Real WKMS worker assignment

Field	Recorded detail
Related requirement	FD-18
Test file	N/A - live WKMS mutation not verified
Type / Priority	Cross-service E2E / P1
Preconditions	Live WKMS workers/assignment API
Input / Steps	Assign task from FDS UI
Expected Output	Correct real worker receives task
Actual Output	No verified execution evidence.
Status	NOT TESTED (integration)
Evidence	No live execution evidence

TC-FDS-038 | should subscribe to the task escalation queue

Field	Recorded detail
Related requirement	FD-19
Test file	backend/src/realtime/task-escalation.consumer.spec.ts
Type / Priority	Unit / mocked broker / P1
Preconditions	RabbitMQ consumer mocked
Input / Steps	Subscribe to escalation queue
Expected Output	Consumer wiring requests expected queue subscription
Actual Output	Test assertions passed in named CI group; individual response payload not separately archived.
Status	PASS (CI suite)
Evidence	Backend CI: https://github.com/forever-hotel/front-desk/actions/runs/40057114169; test source: https://github.com/forever-hotel/front-desk/blob/503465b7eb2c29b56cc2ec0d329d91d6b40853d4/backend/src/realtime/task-escalation.consumer.spec.ts

TC-FDS-039 | updates both indicators from realtime

Field	Recorded detail
Related requirement	FD-19
Test file	frontend/src/components/layout/escalation-indicators.test.tsx
Type / Priority	Frontend unit/component / P1
Preconditions	Mock realtime escalation
Input / Steps	Emit escalation update into component
Expected Output	Visible indicators update
Actual Output	Test assertions passed in named CI group; individual response payload not separately archived.
Status	PASS (CI suite)
Evidence	Frontend CI: https://github.com/forever-hotel/front-desk/actions/runs/40057114175; test source: https://github.com/forever-hotel/front-desk/blob/503465b7eb2c29b56cc2ec0d329d91d6b40853d4/frontend/src/components/layout/escalation-indicators.test.tsx

TC-FDS-040 | Live WKMS RabbitMQ event reaches receptionist UI

Field	Recorded detail
Related requirement	FD-19
Test file	N/A - live cross-subsystem scenario not verified
Type / Priority	Cross-service E2E / P1
Preconditions	WKMS publisher, shared broker, FDS socket
Input / Steps	Publish WKMS event; observe UI badge
Expected Output	Notification and fallback consistent
Actual Output	No verified execution evidence.
Status	NOT TESTED (integration)
Evidence	No live execution evidence

TC-FDS-041 | returns 403 when a worker reads bookings

Field	Recorded detail
Related requirement	NFR-12
Test file	backend/test/bookings-rbac.e2e-spec.ts
Type / Priority	HTTP E2E / P1
Preconditions	Worker JWT
Input / Steps	GET protected booking endpoint
Expected Output	Forbidden for worker
Actual Output	Test assertions passed in named CI group; individual response payload not separately archived.
Status	PASS (CI suite)
Evidence	Backend CI: https://github.com/forever-hotel/front-desk/actions/runs/40057114169; test source: https://github.com/forever-hotel/front-desk/blob/503465b7eb2c29b56cc2ec0d329d91d6b40853d4/backend/test/bookings-rbac.e2e-spec.ts

TC-FDS-042 | rejects raw card properties before checkout service execution

Field	Recorded detail
Related requirement	NFR-12
Test file	backend/test/folio-checkout-rbac.e2e-spec.ts
Type / Priority	HTTP E2E / P1
Preconditions	Receptionist JWT
Input / Steps	POST checkout with raw card property
Expected Output	Request validation blocks card properties
Actual Output	Test assertions passed in named CI group; individual response payload not separately archived.
Status	PASS (CI suite)
Evidence	Backend CI: https://github.com/forever-hotel/front-desk/actions/runs/40057114169; test source: https://github.com/forever-hotel/front-desk/blob/503465b7eb2c29b56cc2ec0d329d91d6b40853d4/backend/test/folio-checkout-rbac.e2e-spec.ts

TC-FDS-043 | rejects a JWT with an invalid issuer

Field	Recorded detail
Related requirement	NFR-12
Test file	backend/test/realtime.e2e-spec.ts
Type / Priority	Socket.IO E2E / P1
Preconditions	Wrong-issuer JWT
Input / Steps	Connect socket with bad issuer
Expected Output	Connection refused
Actual Output	Test assertions passed in named CI group; individual response payload not separately archived.
Status	PASS (CI suite)
Evidence	Backend CI: https://github.com/forever-hotel/front-desk/actions/runs/40057114169; test source: https://github.com/forever-hotel/front-desk/blob/503465b7eb2c29b56cc2ec0d329d91d6b40853d4/backend/test/realtime.e2e-spec.ts

4 Evidence limitations and final acceptance

• These selected cases do not yet establish the guideline requirement that 100% of API endpoints have at least one integration test; an endpoint-by-endpoint inventory and mapping is still required.

• Cases recorded as PASS use the successful named CI suite, not independent signed UAT observations. Update Actual Output and attach screenshots/logs if manual acceptance is required.

• Service contracts using mocks are not proof of real FOSS, WKMS, payment or printer integrations.

• Re-run and regenerate the register on the final branch snapshot before submission.
